

Key Stage 2 Test and Teacher Assessment 2016 - 2017

Key Stage 2 Statistical Bulletin

This report has been written in order to help schools gain early insight into the provisional end of key stage results in St Helens and to help school leaders to judge how effectively their school is performing relative to other St Helens Primary schools. It is also intended that this report be used, by school leaders and members of the School Improvement Service, to analyse performance and identify specific activities and tasks which could be undertaken in order to build on the success of our primary schools and share best practice, at both individual school level and across the borough.

Attainment figures are compared to 2016, which was the first year of the new assessments based on the new national curriculum
